Hi, Steve.

Attached is the draft polrep for Red & Bonita. I didn't hear from you so I went ahead and changed the format to match the other polreps. This document is clean, but I also have a version with tracked changes. The tracked changes version is VERY messy because I reorganized the information so it was easier to understand. Yellow highlights are for information I didn't have and couldn't put my hands on quickly. I don't think I'm in the loop on the path forward items, so you may need to expand there.

Please let me know if you want more or less detail or other changes to the polrep. I can add a packer test photo if you like.

Hope the field work is going well this week. Let me know what happens in Rico.

Jan
